Stick arrow - layout (indicative; exact dimensions: drill-template-A3.pdf)

10 Grove RGB LED sticks, each 83 x 10 mm with 74 x 4 mm LED window, 2 mm between the sticks; arrow 349.8 x 102.3 mm

Stick names, positions and Grove Base Shield connectors

- L-CAP D2 left vertical bar
- L-WING-UP D3 left upper wing
- L-WING-DN D4 left lower wing
- RAIL-UP-L D5 upper rail, left stick
- RAIL-UP-R D6 upper rail, right stick
- RAIL-DN-L D7 lower rail, left stick
- RAIL-DN-R D8 lower rail, right stick
- R-CAP A0 right vertical bar
- R-WING-UP A1 right upper wing
- R-WING-DN A2 right lower wing

- Black dot = the ball of the stick: mount each stick with its ball here (left half: dots left, right half: dots right, caps: up).
  Small circle = middle of the stick (Grove connector, cable hole).

Connector A3 of the shield carries the CLOSED light stick (not part of the arrow).

The sign sketch drives the arrow; this drawing and the wiring only fix the names and the connectors.
